PROFILE

Technical SEO and AEO Specialist with hands-on experience across Programmatic SEO, Local SEO, and large-scale semantic content architecture. Currently leading SEO for **Industrial Automation India**, a B2B platform with **32,000+ subscribers**, driving **24% click growth**, **10% impression growth**, **1,373% events growth**, and **304% AI content growth**. Designed programmatic SEO framework across **145+ city and country hubs** and built a **15+ product PSEO system** generating **₹2.6M+ in verified client revenue**. Proven track record achieving **Top 3 Local Pack rankings**, **Position 1.17** for high-intent local queries, and **95+ Lighthouse scores** for live clients. Operates independently across the full SEO stack with minimal developer dependency.

EXPERIENCE

Technical SEO Specialist

Industrial Automation India 

Feb 2026 – Present
Andheri, India (Remote)

- Grew organic clicks **24%** and impressions **10%**; events section up **1,373%** and AI content vertical up **304%** in clicks
- Conducted full GSC audit diagnosing **13,403 non-indexed pages** across 14 issue categories; resolved **1,700+ broken URLs** via pattern-based 301 redirects and Next.js middleware
- Designed Hub-and-Spoke URL taxonomy for **145+ city and country hubs**; directed developer implementation with JSON-LD ItemList schema and canonical rules; upgraded **5,000+ company entities** from H6 to H3
- Configured robots.txt and structured data for **GPTBot, ClaudeBot, and Google-Extended**; implemented Expert Person Schema and Data Propriety protocols to position platform as primary citation source for AI-driven industrial queries

SEO Specialist

Freelance 

Jun 2025 – Present
Vasai, India

- Managed SEO across **2 industrial B2B clients** generating **₹2.6M+ in verified client revenue** across 10 months
- Achieved **Top 3 Local Pack rankings** with 2.6 - 5.2% CTR and Avg Position 3.9 - 5.2 on high intent keywords (GSC verified)
- Built **15+ product PSEO system** via Next.js dynamic slug routing with canonical handling, JSON-LD Product schema, and internal linking; all pages GSC indexed
- Deployed **5 Next.js sites** to **95+ Lighthouse** with **100% Core Web Vitals**; 100% GSC indexing including domain migrations with zero errors

SDE Intern

SENTARI AI 

Sep 2025 – Nov 2025
New York, USA (Remote)

- Improved mobile Lighthouse from 70s to 95+ via code-splitting, lazy loading, and WebP optimization
- Deployed JSON-LD and Open Graph tags site-wide; fixed crawl errors and indexing gaps
- Built real-time notification system using Server-Sent Events; collaborated with distributed US engineering teams

PROJECTS

Aero Enterprises | Programmatic SEO + Local SEO

- Built **15+ product PSEO pages** using Next.js dynamic slug routing fed by structured JS data objects; canonical tags, FAQ schema, Breadcrumb schema; all pages GSC indexed
- Built site-wide **JSON-LD schema system** in React including reusable schema generators, validators, and error handlers; implemented **9 schema types** across all pages (WebPage, Organization, LocalBusiness, Product, Service, FAQ, Breadcrumb, VideoObject, Offer)
- PSEO pages ranking across **100+ keywords** with top product pages achieving **3.6-6.9% CTR** at Avg Position 5.4-8.0 (GSC verified); consistent upward traffic trend from March 2026
- Generated **₹2M+ in verified client revenue** from organic and GBP traffic; 325 interactions, 260 direction clicks from 1,000+ GBP views (13 months)
- Avg Position **5.2**, **2.6% CTR**, #1 brand ranking; verified citations in **Google AI Overviews** and **Perplexity AI**

Raja Buffing Works | Local SEO

- Ranking **Position 1.17** for "metal buffing near me" and Top 3 for local buffing queries (GSC verified); homepage CTR **4.44%** at Position 6.5
- ₹0.6M+ in verified client revenue** within 11 months; 297 interactions, **284 direction clicks** from 568 GBP views
- FAQ and Review schema validated; verified **Perplexity AI visibility** for core service queries

Python SEO Automation | GitHub Live Projects

- Titan SEO Auditor: **PageSpeed API + SpaCy NLP** pipeline auditing 5+ client sites programmatically
- AI Visibility Checker: **HEEB API** integration tracking brand mentions across ChatGPT and Perplexity
